

Climbing Equipment

▲ KARABINERS

We carry an extensive range of steel & aluminium karabiners, mallions, caritools, swivels and locking snaps.

▲ KONG BIG "8" STEEL

The Kong Big "8" is forged from steel and suits 8-16mm rope. Excellent value for money and a great alternative to the traditional alloy figure 8, this rescue 8 also has ears for extra safety and carries a tensile strength of 5 tonnes.

▲ FLIP LINES

Choose from wire core or soft rope flip lines.

▲ TOOL STROP

The strop is constructed with a safety strap that is designed to absorb the force or shock load of a chainsaw. The safety strap will begin to tear when approximately 30 kg or greater of force is applied.

▶ PORT-A-WRAP

Used for lowering heavy branches or logs, the Port-A-Wrap is a friction device that enables a single person to control loads many times their own weight.

▲ ROPES

A great range of climbing, lowering and high access ropes, all rated to Australian standards.

▼ TEUFELBERGER PULLEYS AVER

The climbing rope moves with the usual ease on the PINTO pulley. The resilient eye which facilitates the retrieval of the pulleySAVER returns to its original position even after a thousand cycles.

▲ ZING-IT THROW LINE

55 metres (180 ft) x 1.75mm. 560 lbs strength.

Climbing Equipment

▲ TREEMAGINEERS TREMOTION HARNESS

TreeMOTION has opened up new dimensions for tree climbers - increased freedom of movement, individual gear loops, high work positioning comfort, improved distribution of load, special D-rings, an exchangeable rope bridge and hip-leg-connection. Three easy-to-handle readjustment mechanisms allow users to tune the front D-rings to their individual needs. The entire forward suspension system is constantly in motion and therefore ideally geared to the body movements of the climber.

▲ PULLEYS

Pulleys of all descriptions, including fixed side, swivel cheek and prusik pulleys.

▲ WEAVER DELUXE THROW BAGS

Bullet throw weights feature a sleek, aerodynamic design and contrasting colours that are easy to see. A bottom loop for an accessory karabiner offers easy rope attachment.

▲ PETZL MICROGRAB

Suits all Hi-Vee fliplines. Designed for use with 1/2" rope. Aluminium body with a cable spring to tension the ribbed cam.

▲ PETZL HANDLED ASCENDER

Ergonomic moulded handle for comfort and thermal insulation. Lower holes for connecting a lanyard and installing a foot loop with a quick link.

▼ BIG SHOT

Still the easiest way to get your line into the tree, the Big Shot works like a giant slingshot to launch lines up to 100 feet. This kit comes with the Big Shot Head and 2 x 4ft heavy duty fibreglass poles.

▲ BUCKINGHAM POLE CLIMBERS

Complete kits or buy gaffs, straps and pads separately.

▲ BAGS

Rope bags, tool bags, kit bags, chainsaw bags and throwline bags for all your storage needs.
