

## Fuel & Oil Containers

### **▲ HUSQVARNA COMBI CAN**

Holds 6 litres of petrol and 2.5 litres oil. The fuel container is fitted with an efficient overfill protection. When the tank is full, the flow is cut off automatically and you can lift up the can without spilling any fuel. The fuel container can be separated from the oil container. Between the cans, there is a space for files and other tools. Child resistant closure.

### **▲ SCEPTER COMBI CAN**

Hold 6 litres petrol and 2.25 litres oil. Red colour. Made from high density polyethylene. Lightweight and crushproof. Ergonomic handle design for easy carrying. Child resistant closure.

### **▲ SCEPTER 20L DIESEL CONTAINER**
