Tree Care Machinery

Your complete supplier of
machinery and equipment
for the tree care industry

Power Tools

▲ ECHO POWER PRUNER 265ES

The ergonomically mounted top handle makes this pruner feel light and easy to use. Features include a 24cc petrol engine, 122 Microlite chain and bar combination for an increased cutting efficiency, automatic oiler and a telescopic shaft (2.7m - 3.8 fully extended). To prevent user-fatigue,

the shaft is cushioned and the throttle is isolated against vibration. The rigid, non-flex shaft has a fibreglass cover, which is easy to grip and slide your hand up and down - it's also much more resistant to fuel spillages than rubber. Cylinder Displacement - 24cc

▲ HUSQVARNA 122HD60 HEDGE TRIMMER

The Husqvarna 122HD60 is an exceptionally well-balanced and rugged double cutting edge hedge trimmer with X-Torq® engine. The robust design leads to long product life during tough use.

Cylinder Displacement: 21.7cc
Bar: 60cm

▲ POWER PRUNER BOX

Protect your investment with this power pruner carry box. Made from heavy duty material and easily attaches to the top of a vehicle or the back of a ute. Dimensions: 295cm x 30cm. Black, Green or Orange.

▲ ECHO PB 2155 BLOWER

The PB-2155, in a bold new color, features a low-decibel design for noise sensitive environments, grouped controls for easy reach and operation, parallel handles to aid in directional operation, the Posi-loc™ system to secure the pipe connection at all times.
