

Bandit Model 90XP Disc Chipper

The **Model 90XP** is a compact, easy-to-tow 9-inch capacity disc-style chipper.

A 9" X 17" chipper opening allows the Model 90XP to process multiple stems as well as large diameter pieces up to 9 inches.

This unit has been very popular among small tree services and Councils because of its maneuverability and low operating cost.

The Model 90XP comes standard with a strong 86hp Kubota diesel engine. The Model 90XP is built tough like our popular 12-inch model and with the same powerful dual feed system found on the Model 150XP. This feed system has the power to pull whole trees into the chipper. The Model 90XP can be ordered with a self-propelled rubber-tracked undercarriage that will eliminate the need to carry material to the chipper.

If you are in the market for a compact, dependable brush chipper that is easy to operate and maintain, give our Model 90XP a demo, you will not be disappointed.
